TECHNOLOGY & SERVICE

Who are we?

RENTEFFECT rents, creates, and provides spectacular equipment to enhance your events and digital artistic creations. Thanks to our experience, expertise, and adaptability, we now offer services you wouldn't have dared ask for yesterday.

Our goal: to bring your boldest ideas to life with powerful, immersive, and immediately available visual solutions.

ENHANCE YOUR LOCATION

Facademies, monuments, churches, castles, museums, parks, gardens, bridges, tunnels, ceilings, vaults, columns, arches, sculptures, fountains, public buildings, town halls, outdoor swimming pools, luxury hotels, private villas, high-end restaurants, entrances to event venues, showrooms, shop windows, outdoor stage areas, terraces, walkways and pathways, passageways, forecourts, industrial zones under development, temporary artistic installations, video mapping events, national holidays and celebrations, product launches, outdoor exhibitions, immersive scenographies, fixed or temporary installations.

SERVICE ARCHITECTURAL

Lighting, light, control:

We have everything you need to enhance your space without resorting to invasive techniques.

Our approach combines discretion and efficiency, highlighting existing architecture with elegant, controlled, and non-destructive lighting effects.

Impressing without overdoing it is also the art of lighting according to RENTEFFECT.

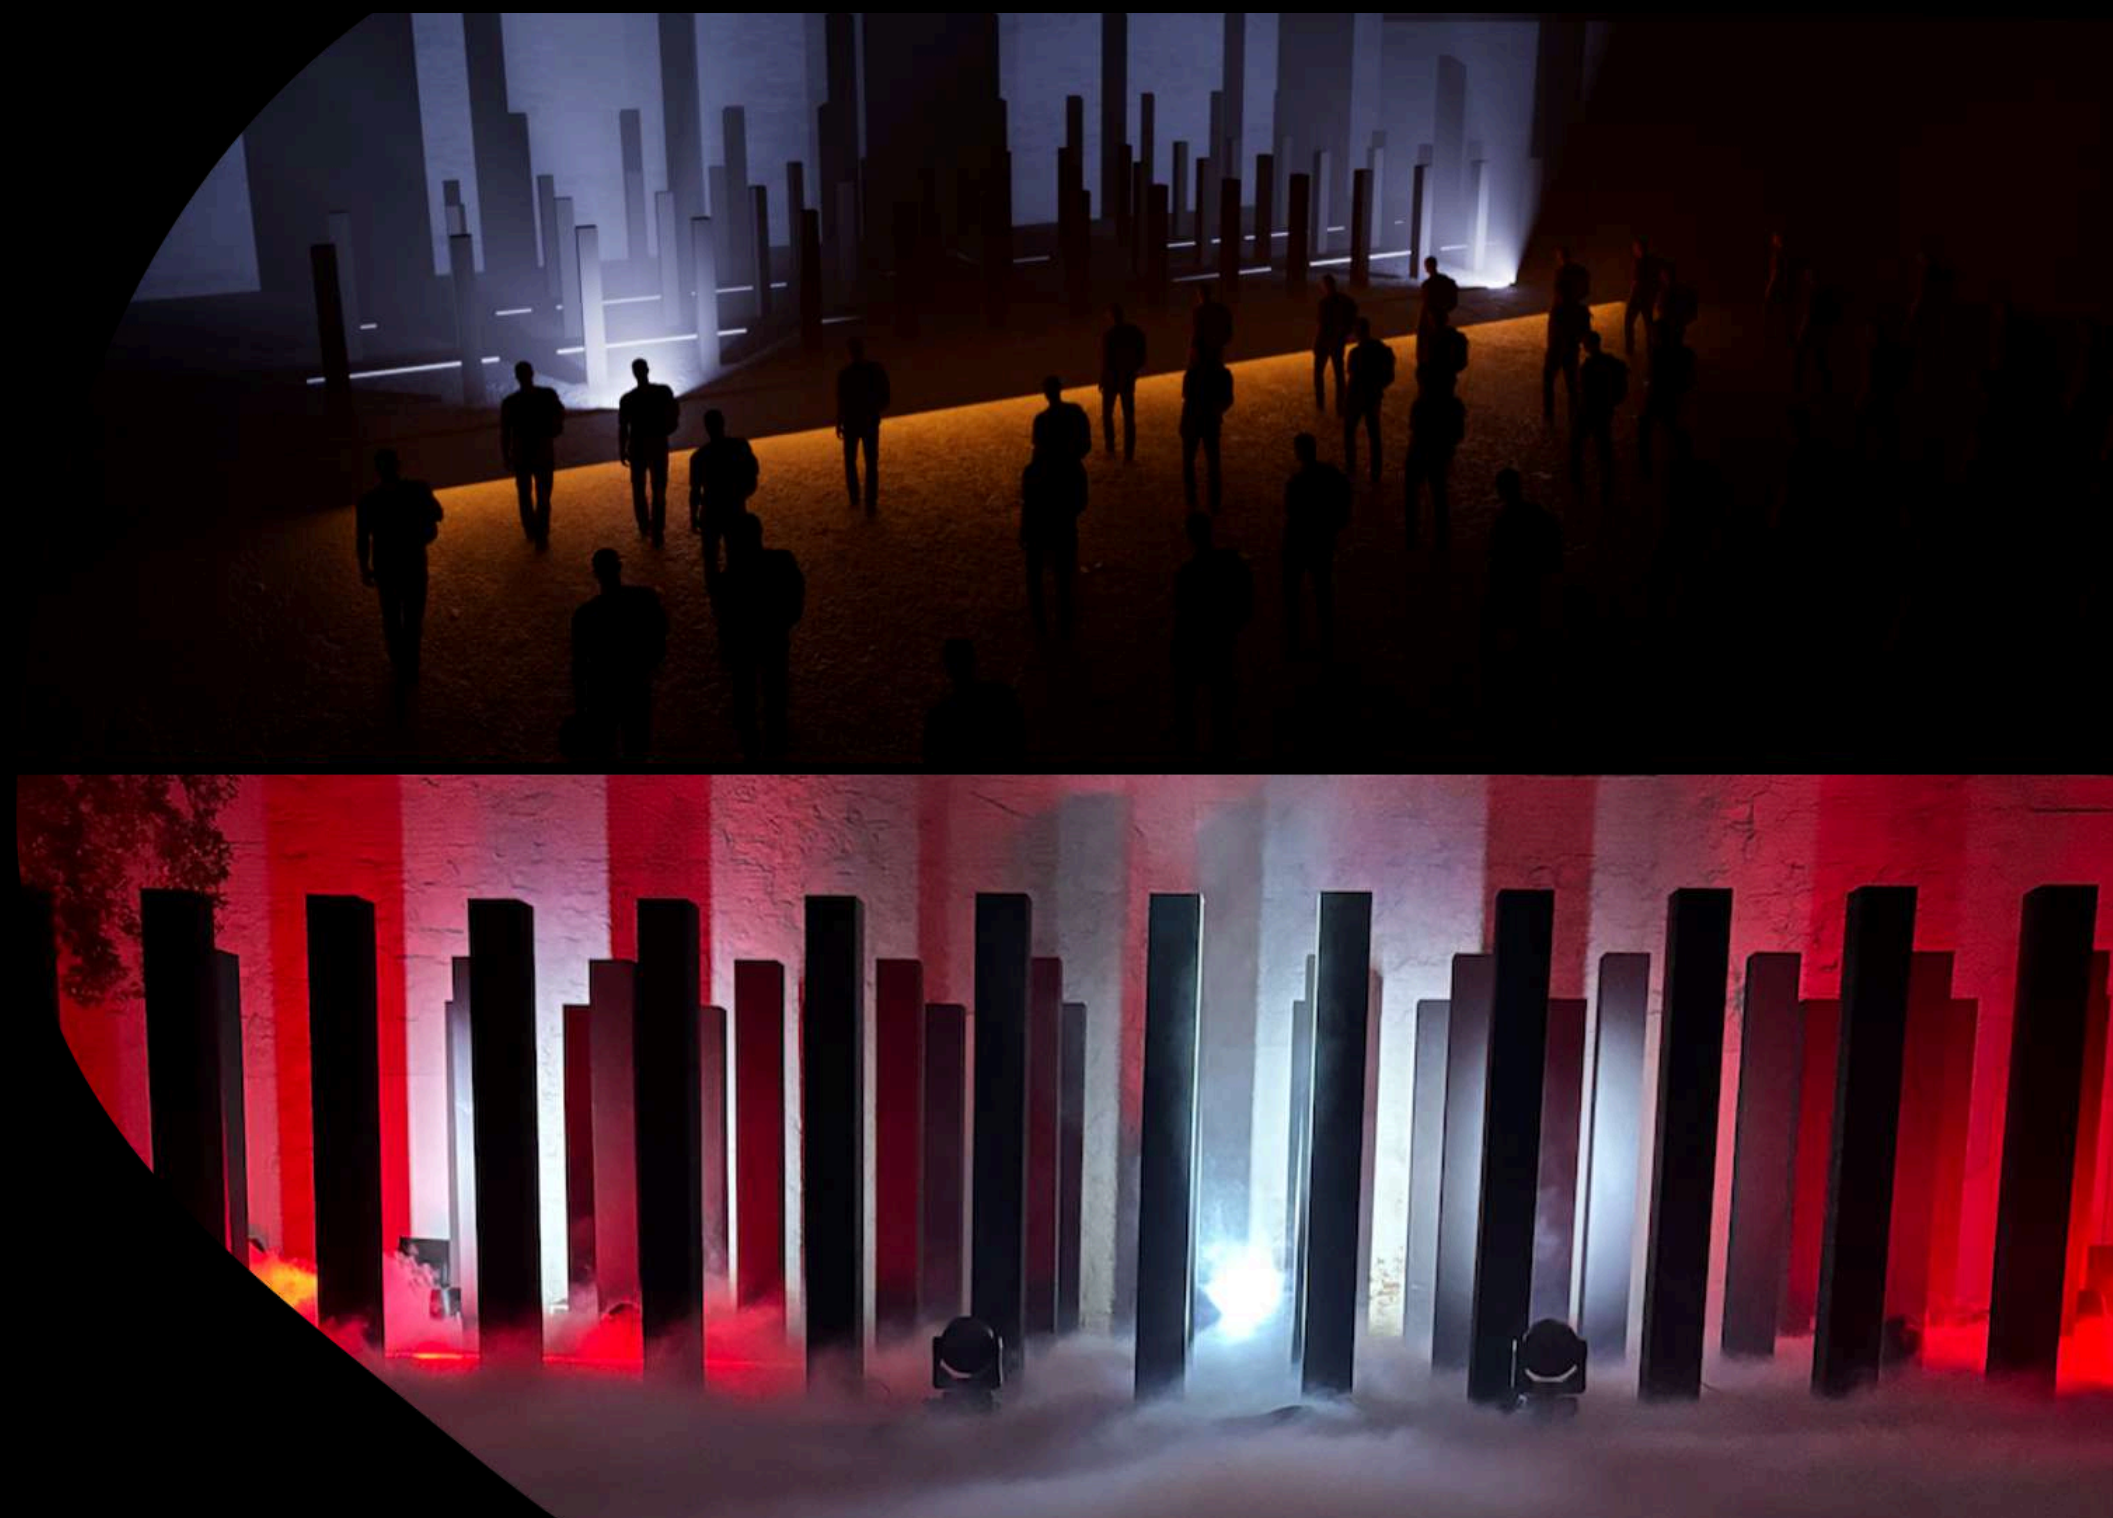

AT THE SERVICE OF THE ARTIST!

The artist creates:

RENT EFFECT does everything to bring the work to life.

From virtual idea to physical reality, our mission is to bring your artistic visions to life with tailor-made, discreet yet powerful technical means.

From virtual to real: that's our promise.

LIGHT

Finding the right light

SOFTWARE

Give control to the artist

DECORS

SOUND

Create immersion

LASER'S ON SHOW'S

Event Laser Services

Delivering, installing, and performing spectacular laser shows for all types of events and festivals is our specialty.

From setup to live performance, we guarantee reliable, powerful, and perfectly synchronized performances.

Putting on a show is our mission.

SPARK & FLAMES

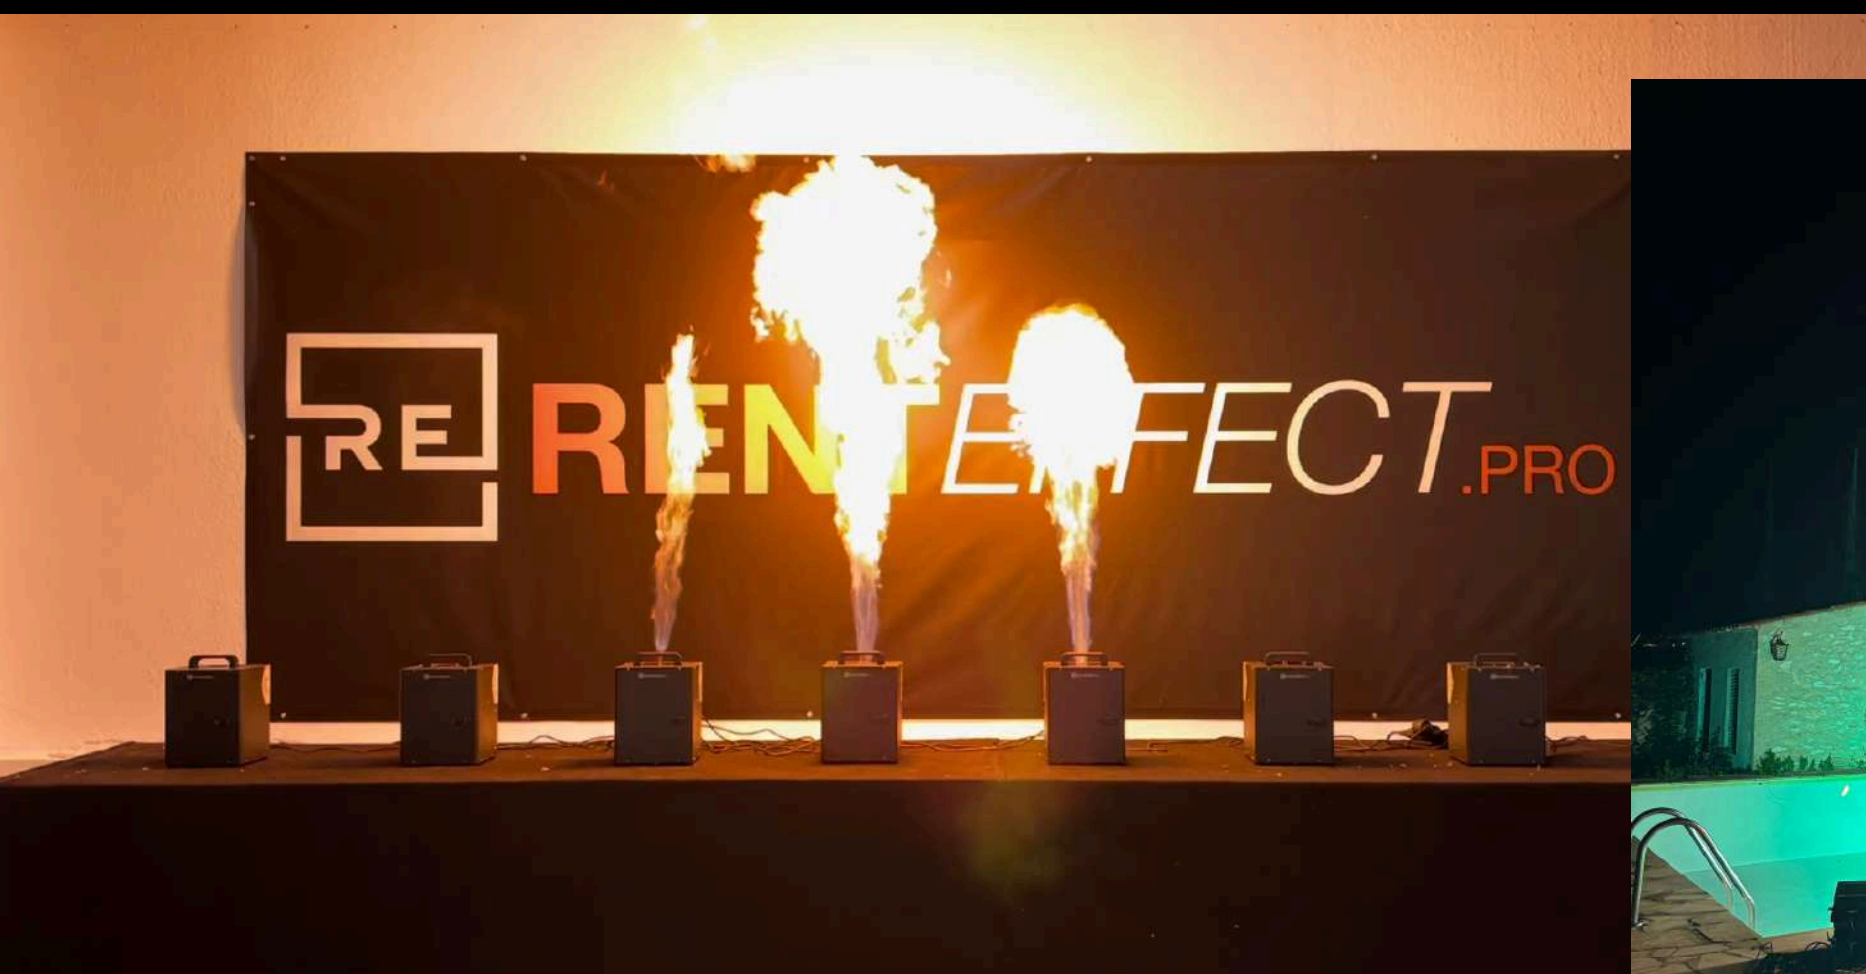

On Fire

Add a spectacular dimension: flames, sparks, bursts of fireworks.

Add the element of fire to your creations for an unforgettable visual experience.

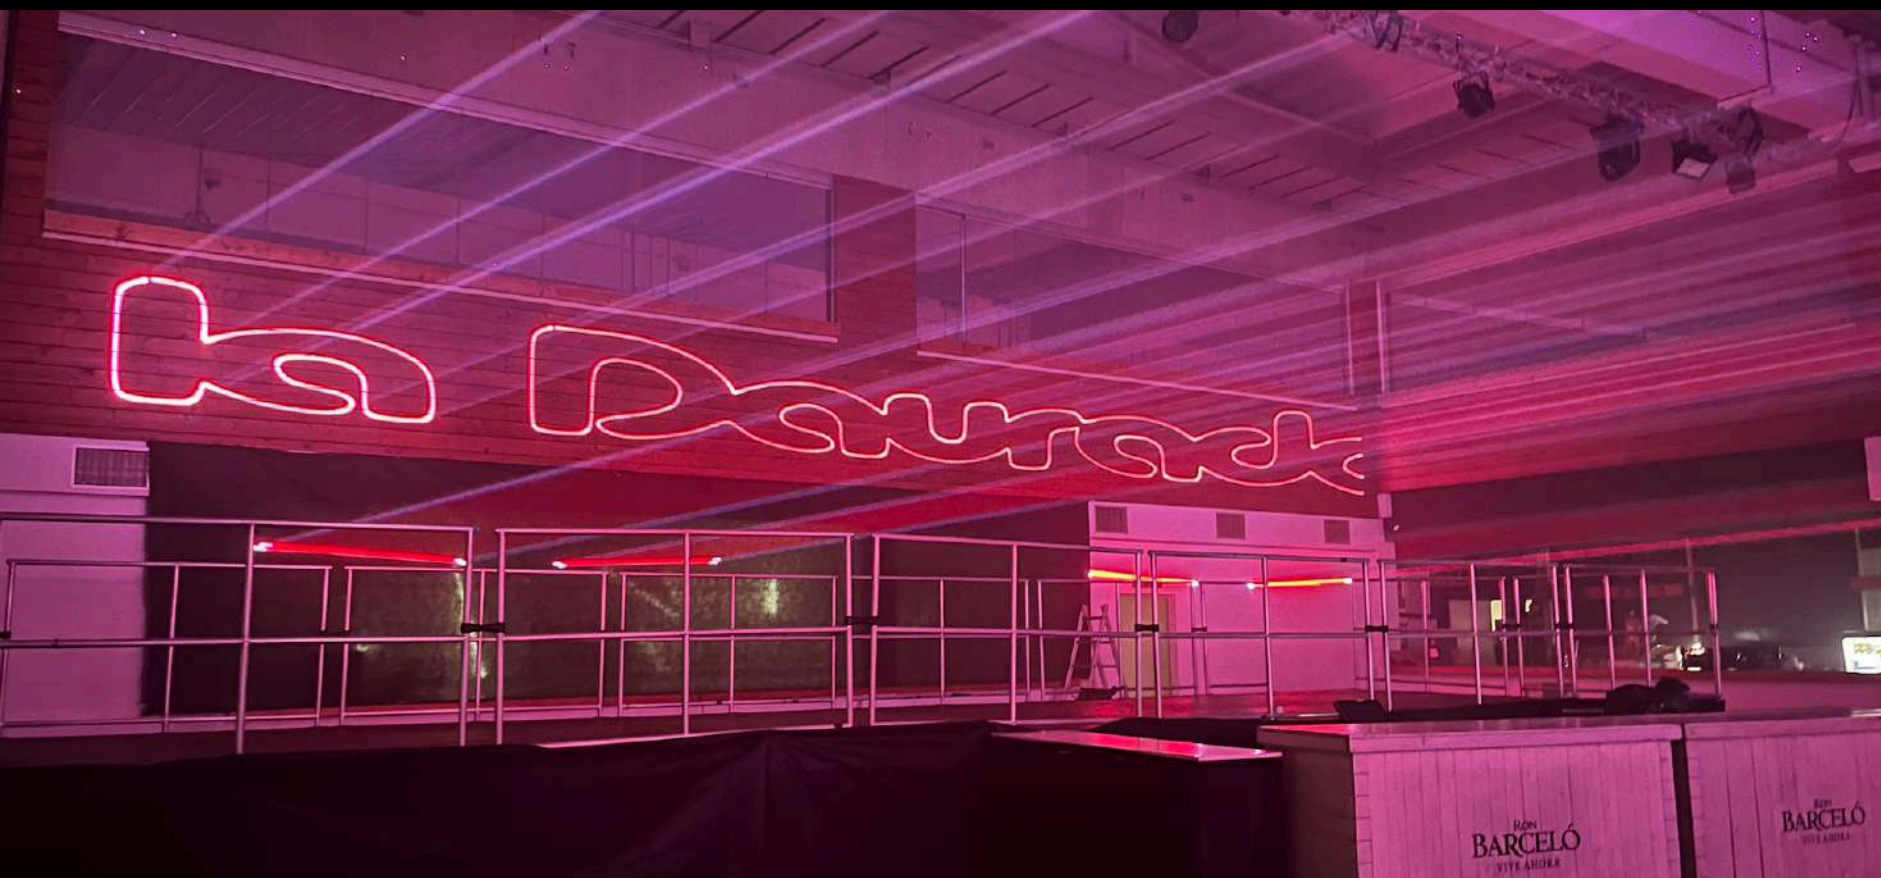

Whether live, in a permanent installation, or for a key moment in your show, our special effects bring power, intensity, and emotion.

Because sometimes, all it takes is a spark to ignite the magic.

COMMUNICATION

Communicate differently. Impress simply.
RENTEFFECT helps you convey a powerful message with clear, elegant, and impactful visuals.

THEMATIC DECORATION

Decorate & Animate

We offer alternative themed decorating solutions that are original, creative, and infinitely modular.

Using dynamic, adaptable lighting solutions.

We create visually striking and energy-optimized atmospheres.
A new way to decorate: more impactful, freer, and more vibrant.

MAPPING & LASER

Facade & Building Mapping

Architectural mapping allows artists and creatives to express themselves freely by transforming walls and buildings into living canvases.

Spectacular, immersive, and accessible, this type of projection attracts a wide audience seeking visual emotions and breathes new life into urban spaces.

RENTEFFECT supports artists and communities in creating these unique experiences.

Push the limits of traditional mapping with laser mapping.

Millimeter precision, pure lines, volumetric effects.

LASER offers a new visual dimension, both futuristic and hypnotic.

Ideal for facades, structures, sets, or immersive installations, laser mapping transforms any space into a striking sensory experience.

Explore space. Redraw reality.

ECRAN

LED screens, yes...

But in the spirit of your image.

At RENT EFFECT, we don't just offer LED screens.

We intelligently integrate them into your scenography, your message, and your visual universe.

Design, format, location, content: every choice is made to enhance your image and enhance your project.

Because a well-designed screen is much more than a medium: it's a vehicle for impact.
